OBJECT

Be the team with the highest score at the end of five (5) question rounds.

SET UP

ELECT A HOST

- The easiest way to elect a host is for one player to volunteer to play host for the entire game. The host is responsible for reading all of the questions out loud to the entire group, collecting and marking the team Answer Sheets, tallying the score on the Score Sheets, and entertaining! The role of host can be tons of fun, and many people find it just as entertaining as answering the questions.
- If no one wants to be the host for the entire game, then the role will be rotated between teams. When a player assumes the role of a host in a round, they cannot assist their team in any way during the round, and must mark the answers fairly, especially during the drawing round.

BREAK UP INTO TEAMS

- Try to break up into teams with an equal number of players on each team. The game may be played with two or more teams. Teams may have as few as two people and as many as eight people. Choose a fun team name that will identify the group for the game. Elect one person from each team to be the scribe who will write the answers on the Answer Sheet for each question of the round. The scribe is also responsible for handing in the sheet at the end of each round.

PLAYING THE GAME

- There are five question categories. Namely - WE'RE BOOKED, POP CULTURE, ATHLETIC FEATS, GEEK CHIC and PAST, PRESENT & FUTURE.
- The host chooses the order of the five categories, from which questions will be asked.
- Each team is given an Answer Sheet, and each team writes its team name at the top of the Answer Sheet.
- Teams position themselves facing the host. Take care so that players cannot see the Answer Sheets of the other teams.
- The host picks the first Question Card and reads the questions one by one to the whole group, allowing sufficient time between each question for teams to write their answers. Ensure that the answers at the back of the question card are not visible to any of the players.
- When all questions have been asked from the Question Card, the host gives everyone an extra two minutes to finish writing and to check their Answer Sheets. After two minutes, the host collects any remaining Answer Sheets.

BONUS POINT

The first team to hand in its Answer Sheet is awarded an extra point for that round.

- At the end of each round, the host checks each Answer Sheet and tallies the score.
- After each Answer Sheet has been tallied, the host fills out the Score Sheet to keep track of each team's score, and announces the standings.

WINNING THE GAME

At the end of the five (5) rounds, the team with the highest cumulative score wins!

TIE-BREAKER ROUND

If two or more teams end the game with the same high score, the host may elect to play a tie-breaker. The tie-breaker is played as follows:

- The tied teams are given a single question as chosen from a new Question Card picked by the host.
- The answer is written down immediately by all teams involved.
- Any team that gets the question wrong is eliminated from the tie-breaker round.
- Additional questions are asked as needed until only one team remains – the winner!
